Doomsday Engine - Bug #619

Snowberry: Misaligned text in lists

2009-02-26 10:21 - skyjake

Status:	Closed	**Start date:**	2009-02-26
Priority:	Normal	**% Done:**	100%
Assignee:	skyjake		
Category:			
Target version:	1.9.0-beta6		

Description

The profile names are not aligned properly in the profile list. See attached screenshot (beta5.1 on the left, beta6 on the right with the bad alignment).

I can't be sure from the screenshots alone; is this a Windows-specific issue? Only, I've just tried rebuilding Snowberry but I notice in the build log that I am apparently missing a module called wxStaticText which I presume from the name should have been installed with the wxPython stuff.

#5 - 2009-02-28 16:12 - skyjake

The alignment is correct on the Mac at least.

Also:

1. import wx
2. wx.version()
   '2.8.3.0 (mac-unicode)'

#6 - 2009-02-28 16:12 - skyjake

It's odd that it says wxStaticText is missing since the static text is part of the core functionality of wx.

#7 - 2009-02-28 16:20 - danij

wxVersion() is reporting:
2.8.9.2 (ansi)

I tried the unicode package originally but after a bunch of compile errors and a tip off in snowberry/build.bat I switched to the ansi package and build seemed to work fine:

REM -- Additional binary dependencies.
ECHO Copying dependencies to ./dist...
copy "%PYTHON_DIR%"\lib\site-packages\wx-2.8-msw-ansi\wx\msvcp71.dll dist

I'll try building with wxPython 2.8.3.0 unicode
