

Doomsday Engine - Bug #1803

[Hexen] Number of inventory items increases when going through a portal

Target version:	1.14.4		
Description			
Steps to reproduce: 1. Collect some items 2. Go through a portal (happens with the gate in Silent Refectory leading to Heresiarch's Seminary).			
Then, there are twice as many items in the inventory and their number doubles between each teleportation.			
Happens in the latest stable build (1.14.3) while going between Heresiarch's Seminary and Silent Refectory using the portal in the latter. I'm providing a savefile in which I stand just before the gate.			
I have noticed this behaviour before in some previous release (it then occurred in Seven Portals hub), but I believe it was fixed in the 1.14.2 build.			
OS: Windows 8.1			
Thank you for your help.

Fixed|Hexen: Extra artifacts given when jumping between hub maps

While the inventory is reset during map setup, a savegame is then loaded, which restores inventory. The hub backup would then give additional artifacts.
