

Doomsday Engine - Feature #1829

Eliminate fixed-length file path limits

2014-06-19 17:05 - skyjake

Status:	Closed	Start date:	2014-06-19
Priority:	High	% Done:	100%
Assignee:	skyjake		
Category:	Enhancement		
Target version:	2.0 – Home UI & Packages		
Description			
File paths should not be stored in fixed-length strings. Instead, use String, Path and NativePath.			
<ul style="list-style-type: none">• filename_t should be removed entirely• UnixInfo_GetConfigValue() should return an AutoStr• sys_dirac should be removed and replaced with NativePath (some unique functionality in sys_dirac may need to be moved to NativePath)			

Associated revisions

Revision bf259336 - 2016-07-20 15:49 - skyjake

Cleanup|Refactor: Removed obsolete sys_dirac.cpp/h from libdoomsday

Native directory operations are nowadays done by the NativePath class.

IssueID #1829
