

Doomsday Engine - Bug #2186

Deleting a save in the in-game menu using Del key locks out that save slot

Description			
<p>I have Doomsday built off of the "stable" branch. It reports version 1.15.9.</p> <p>I have noticed that if I delete a saved game from either the Load or Save menu, then I can no longer use that slot for saving. When I go to the Save Game menu and try to select the previously cleared slot, the UI will skip over that slot.</p> <p>The only way I have found to get the slot "savable" again is to restart Doomsday.</p> <p>I have looked through the code, but unfortunately I cannot find where the slot gets disabled.</p> <p>Please let me know if you need any further information.</p>
