

Doomsday Engine - Bug #1004

[Hexen] 3D Tree_Destructive appearance is incorrect

2012-03-05 13:48 - vvv1

Status: New	Start date: 2012-03-05
Priority: Normal	% Done: 0%
Assignee:	
Category:	
Target version: Rendering	

Description

3D Tree_Destructive looks light grey but should be light brown as in older versions. Please, look at the attached screenshots.

How to reproduce:

1. Copy Tree_Destructible model from http://colocall.net/~vvv/D-Tree_Destructible.zip to data/jhexen/auto directory. The model is extracted from XCCP 1.2.
2. Start Hexen.
3. Start new game and look at one of the destructive trees.
