Doomsday Engine - Bug #1018

[Packaging] Ubuntu deb depends on nvidia

Description

I have open source radeon drivers, dont need nvidia drivers that are in deps of deb packages. If i manually repack it removing this depending package everything is working fine. Is there really a reason for this drivers being mandatory?

It seems the dependency on nvidia-current was inadvertently added because the package was present on the 32-bit Ubuntu autobuilder. I removed it for today's build.
