

Doomsday Engine - Bug #1095

Non-ASCII characters broken on cmdline and/or resource finder

2012-10-16 10:19 - skyjake

Status: Closed	Start date: 2012-10-16
Priority: Urgent	% Done: 100%
Assignee: skyjake	
Category: Defect	
Target version: 1.15	
Description Tested with the -iwad option (Doom.wad is present at the given paths): - "-iwad ~/Olgersan/Doom.wad" on cmdline: Doomsday will find it ok. - "-iwad ~/Ölgersån/Doom.wad" on cmdline: Doomsday won't find it but the encoding is correct in the command line options list. - "-iwad ~/Ölgersån/Doom.wad" in response file: Doomsday won't find it and the encoding is garbled in the options list. Could be causing Issue #1038 .

History

#1 - 2012-10-16 10:20 - skyjake

When it comes to parsing command line options from the app arguments or response file, a proper conversion is now applied. This addresses one part of the issue.

- *Target version deleted (1.9.9)*

#9 - 2014-04-26 19:27 - skyjake

- *Priority changed from High to Urgent*

#10 - 2014-06-02 08:16 - skyjake

- Status changed from New to In Progress
- Target version set to 1.15
- % Done changed from 20 to 100

#11 - 2014-06-02 08:16 - skyjake

This should be fixed by [040906a](#); needs wider testing for verification, though. (Snowberry has not been modified.)
