<b>Category:</b>	
<b>Target version:</b>	
<b>Description</b> Let's say I have a wad containing MUS music, but I have a /music folder that uses mp3s by default. Why not have the WAD music be used by default over the mp3s?	
<b>Labels:</b> Sound

What's wrong with setting the preferred music source to "MUS"? Doesn't it work, or is it just too cumbersome?

No, I have nothing against it, I just have to rename one of my custom audio.ded's, which plays the MP3 music instead of the music inside my custom WAD.
