Description			
Now "-fast" for jHeretic work incorrect (gargoyles attack very rarely - they should attack more often, more aggressive). You can compare "skill 4 with -fast" and "skill 5" for see the difference.			
"-fast" should make the "skill 5" behavior of monsters attack-rate.

The -fast command line option doesn't work in the original Heretic or HeXen. Or maybe it was removed for those games.

So Doomsday isn't actually missing a feature from the original games here.

Doesn't mean -fast can't be added to Heretic and HeXen in Dday though, if Deng team wish to add it.
