Doomsday Engine - Bug #1722

Log filter default settings not applied immediately

2014-01-29 16:10 - vermil

Status:	Closed		**Start date:**	2014-01-29
Priority:	Normal		**% Done:**	100%
Assignee:	skyjake			
Category:	Defect			
Target version:				

Description
The default filter settings button reset's all the values in the menu back to their defaults, but the actual log filter settings are not defaulted until one then manually toggles any individual filter setting.

Fixed|UI|Log: Update filter after reseting to defaults

IssueID #1722

History

#1 - 2014-01-29 16:11 - vermil

I'll also add a small oversight.

Normally, opening the log filter settings closes the console log and vice versa, while the main menu remains open.

But if one opens the console log, while log filter settings menu is open, it closes both the log filter settings menu and main menu, while leaving the console log displayed. If one then re-opens the main menu and log filter settings, the console log then doesn't disappear as it should.

To be a bit cheeky, I personally prefer the seemingly bugged behaviour as it allows me to immediately see the results of my filter setting changes (rather than constantly having to close the filter settings and then open the log to see them).
