

Doomsday Engine - Feature #1841

Feature # 1840 (Progressed): Support ZDoom-extended MAPINFO format

Update MAPINFO parser to ignore ZDoom specific extensions

2014-07-17 16:58 - danij

Status:	Closed	Start date:	2014-07-17
Priority:	Normal	% Done:	100%
Assignee:	danij		
Category:	3rd party compatibility		
Target version:	1.15		
Description			
The presence of ZDoom extensions to Hexen's MAPINFO definition format will presently cause the parser to fail when an unknown construct is encountered. For now, the parser should be updated with just enough knowledge of these extensions so that they can be ignored.
