Description
Hitscan issues

1) Try to hit pottery in Hexen map01 with fighter like in this video: <https://www.youtube.com/watch?v=Vk7kHxKwflE#t=0m09s>

Actual result: hits accepted but pottery is alive or hits missed but fighter has "recharge" animation
Expected result: pottery should be broken or "recharge" animation should not happen (and hit should miss in this case)

Reproduced in 2.0 stable without addons

Vermil, I'm using the "unstable master" target to indicate that the issue is a recent regression (occurred after most recent stable release).

Is this a bug that occurs in 1.15.8 as well?

Yes, and also for Hammer of Retribution (both in 1.15.8 and 2.0)
