Description			
freedom wads are only detected if placed in doomsday\data folder chex3.wad is not detected (size 19 191 031 downloaded from http://www.chucktropolis.com/gamers.htm) windows x64 build 2869			

Associated revisions

Revision 61c017ba - 2018-11-11 09:44 - skyjake

Resources\libdoomsday: Recognized FreeDoom version 0.11.3

IssueID #2296

History

#1 - 2018-11-11 08:35 - vermil

Dday doesn't detect the latest version of Freedoom (the wad has been updated since Dday added support for the version at the time).

Chex Quest 3 is not supported by Dday, only Chex Quest 1. Chex Quest 3 requires ZDoom.

#2 - 2018-11-11 09:44 - skyjake

- Subject changed from IWAD detection problems to FreeDoom IWAD detection problems

- Status changed from New to Resolved
