<b>Description</b>			
Thanks for finally Doomsday servers visible in Doom Explorer!!!			
about bug!			
If you connect to server with 4 players you going to be fifth (5)			
And it causes you to become as half player half spectator ??			
you walk on map , monsters not react to you, you can't pickup any items, you can't open doors, but you still can kill monsters, block doors i mean prevent them to close, you can't teleport, you can block monster and players they can't pass trough you.			
If map have voodoo's you spawn on it.
