

Doomsday Engine - Bug #257

Snowberry: Unable to load some PWADS

2005-09-22 06:12 - crazedimp

Target version: 1.9.0-beta4	

Description

When using Snowberry for the beta2 of 1.9.0 occasionally some wads cannot be loaded. An example of a wad that does this is the "2002ado.wad". I have tried a clean install of beta2 but it does not solve the problem. This problem also occurred in beta1 of 1.9.0. I also had the same sort of problem with Snowberry for 1.8.6 but the "2002ado.wad" loaded up fine then, it was just the "AV.wad" that didnt work (which works now by the way). Perhaps Snowberry has problems installing WAD files that are meant for ultimate doom?

Still occurs in 1.9.0-beta4? I haven't been able to reproduce the problems.
