

Doomsday Engine - Bug #325

Snowberry: Problems with spaces in addon filenames

2006-08-02 15:12 - danij

<b>Status:</b>	Closed	<b>Start date:</b>	2006-08-02
<b>Priority:</b>	Normal	<b>% Done:</b>	100%
<b>Assignee:</b>	skyjake		
<b>Category:</b>			
<b>Target version:</b>	1.9.0-beta4		
<b>Description</b>			
The following error was reported by Snowberry:			
Profile Error			
The profile			
H:\Doomsday190-beta4\Snowberry\userprofiles\heretic.prof			
could not be loaded because its contents were found to			
be invalid. To correct the problem you should manually			
edit the file and fix the invalid portions, or delete			
the file.			
Reason:			
list values must be separated with a comma, but 'beta'			
found instead			
It would seem that Snowberry does not like addons whose			
filename includes spaces.
