

Doomsday Engine - Bug #326

[DOOM] 'Pause' message missaligned, wrong JDUI font

2006-08-02 18:46 - deus-ex

Status: Closed	Start date: 2006-08-02
Priority: Normal	% Done: 100%
Assignee: danij	
Category:	
Target version: 1.9.0-beta4	
Description Pressing 'Pause' in jDoom prints a missaligned message thus the letter 'P' is overwritten of the remaining text 'ause'. In addition the text is printed using the silver font of the JDUI-Addon (by Dani J666) when it should use the red font. Used to work in previous beta.	
Labels: jDoom

This appears to be an issue with WI_DrawParamText() when calculating the character placement with centrally aligned, mixed case strings.
