

Doomsday Engine - Bug #329

[Heretic|Hexen] Afrit/Gargoyle death, endless frame loop

2006-08-02 19:13 - deus-ex

Status: Rejected	Start date: 2006-08-02

Category: Vanilla emulation	
Target version:	
Description When the Gargoyle(red flying Monster in Heretic)/ Afrit(black fireskined flying Monster in Hexen) falls to death in a tight spot or at some stairs sometimes the death animation gets stuck in an endless loop. I tried to provide a savegame of that situation but it turned out that a savegame restores just the final death state of a monster, i.e. when the above described situation occurs and you make a savegame, the endless death frame looping disappears once you load that savegame. bump - whats happening here ?

#2 - 2009-01-28 22:17 - danij

This is due to a bug in original Heretic and Hexen where flying creatures can get stuck in a loop whereby they repeatedly enter their "Crash" state.
