

## Doomsday Engine - Bug #603

### snowberry version column problem

2009-02-08 04:41 - eunbolt

<b>Status:</b> Closed	<b>Start date:</b> 2009-02-08
<b>Priority:</b> Low	<b>% Done:</b> 100%
<b>Assignee:</b>	
<b>Category:</b>	
<b>Target version:</b>	
<b>Description</b> The "version" column is too narrow. With the addon packs I maintain, I see a date instead of a version number. and with the current width you . can not see the whole date, only the first three number of the year, eg the date is 20080908 and you can only see 200... in snowberry so if you also had a version of the pack from 20090102 you would see 200.. for bith and can not tell which is newer

### History

#### #1 - 2009-02-08 08:15 - skyjake

The version numbers in SB are intended to be in the format "x.y", and the dates are tracked separately (as listed in the addon inspector dialog).

As a solution to the reported issue, the version column's width should be saved in window.conf once resized.

#### #2 - 2009-02-08 11:04 - yagisan

Is there any real reason snowberry can not handle the unambiguous version format of YYYYMMDD ?

#### #3 - 2009-02-08 11:06 - skyjake

No, the UI just isn't laid out with that long version numbers in mind.

#### #4 - 2009-02-19 13:30 - eunbolt

what is the default window size for snowberry?  
800x600?

#### #5 - 2009-02-19 15:20 - skyjake

It depends slightly on the platform, but the default window size is around 750 x 550.

#### #6 - 2009-11-17 05:04 - danij

Snowberry is to be phased out and replaced with an in-game counterpart.
