

Doomsday Engine - Bug #76

Error when starting

2003-06-22 03:00 - draconx

Status: Closed	Start date: 2003-06-22
Priority: Low	% Done: 100%
Assignee: skyjake	
Category:	
Target version: 1.7.9	
Description Ever since I updated my doomsday 1.7.8 to doomsday 1.7.9, I get the same error when starting up: "The ordinal 126 could not be located in the dynamic link library jtNet2.dll" It doesnt seem to cause any problems in gameplay, haven't tried multiplayer, but starting a server works fine. It's just an annoyance.
