jHexen requires that your Hexen IWAD is patched to ver 1.1 Try patching and then update this report.

Are there patches for the IWAD alone? The ones I found want HEXEN.EXE

#3 - 2010-01-24 23:38 - danij

Not that I'm aware of. It shouldn't be a problem though as hexen.exe can be found on your original game media.
